RE: Out-of-scope preliminary determination – antidumping duty order on certain circular welded non-alloy steel pipe from Mexico (A-201-805)

Notice of the lifting of suspension occurred on the message date of these instructions. See paragraph 5 below.

1. Commerce received a scope ruling request from Productos Laminados de Monterrey, S.A. de C.V. Commerce issued a preliminary scope determination on 12/03/2014 that ASTM A-513 mechanical tubing which Productos Laminados de Monterrey, S.A. de C.V., exports is not within the scope of the antidumping duty order on certain circular welded non-alloy steel pipe from Mexico (A-201-805).

2. Commerce preliminarily determined that Productos Laminados de Monterrey, S.A. de C.V.'s products are outside the scope of the order when they are circular tubes that are neither galvanized nor coated with zinc, and are single stenciled as ASTM A-513, and meet the ASTM A-513 specification for "as welded tubing," and either:

(a) do not overlap with the diameter and wall thickness combinations (i.e., "nominal pipe sizes") of pipe (e.g., ASTM A-53) for Schedules 10, 40, or 80; or

(b) do overlap with the diameter and wall thickness combinations (i.e., "nominal pipe sizes") of pipe (e.g., ASTM A-53) for Schedules 10, 40, or 80, and have not been hydrostatically tested, and have a carbon content not greater than 0.13 percent, and meet the Rockwell B Hardness test (that is, a minimum of 55 for grade 1010, and a minimum of 50 for lower carbon grades (e.g., 1008)), and have a minimum elongation (in 2 inches) of 24 percent for pipes and tubes with a diameter over 1.5 inches or have a minimum elongation (in 2 inches) of 15 percent for pipes and tubes with a diameter of 1.5 inches or less.

3. In accordance with 19 CFR 351.225(l)(2), effective 11/01/2012, CBP shall terminate suspension and liquidate all unliquidated entries entered, or withdrawn from warehouse, for consumption of ASTM A-513 mechanical tubing described in paragraph 2.

4. Refund any cash deposits relating to the ASTM A-513 mechanical tubing described in paragraph 2.
5. These instructions constitute notice of the lifting of suspension of liquidation of entries of ASTM A-513 mechanical tubing, as described in paragraph 2, from Mexico entered, or withdrawn from warehouse, for consumption, on or after 11/01/2012.
6. The assessment of antidumping duties by CBP on shipments or entries of this merchandise is subject to the provisions of section 778 of the Tariff Act of 1930, as amended. Section 778 requires that CBP pay interest on overpayments or assess interest on underpayments of the required amounts deposited as estimated antidumping duties. The interest provisions are not applicable to cash or bonds posted as estimated antidumping duties before the date of publication of the antidumping duty order. Interest shall be calculated from the date payment of estimated antidumping duties is required through the date of liquidation. The rate at which such interest is payable is the rate in effect under section 6621 of the Internal Revenue Code of 1954 for such period.
7. Unless instructed otherwise, for all other shipments of certain circular welded non-alloy steel pipe from Mexico not covered by paragraph 2 above, you shall continue to collect cash deposits of estimated antidumping duties for merchandise subject to the antidumping duty order at the current rates.
8. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by O6:MF.)
9. There are no restrictions on the release of this information.

Michael B. Walsh
